

IO Eris

The IO Eris is a lightweight, contemporary task and meeting room chair designed to deliver comfort, breathability, and modern style. Featuring a full-mesh seat and backrest, the Eris promotes airflow to help keep users comfortable throughout meetings, collaborative sessions, and focused work periods. Equipped with a gas lift, swivel function, alloy mechanism with lock and tilt adjustment, the chair provides practical functionality and ergonomic support.

The 3D ratchet height-adjustable arms feature slide and rotation adjustment with PU arm pads for enhanced comfort and flexibility. The Eris is an ideal choice for meeting rooms, visitor areas, training rooms, breakout spaces, and agile workplaces.
